NATIONAL LINEMAN APPRECIATION DAY

The National Rural Electric Cooperative Association has designated April 10th as National Lineman Appreciation Day. PIE&G proudly acknowledges its electric linemen and all employees – past and present – for their services. According to CEO Brian Burns, “Our employees deserve all the recognition they can get. All our employees, including electric linemen, work day and night, often in hazardous conditions, to safely restore service. Employees go above and beyond when the power goes out or natural gas service is compromised. I thank and appreciate each and every employee for their hard work and dedication when our members need them most.”

SAFETY IN NUMBERS SAVES LIVES & PROPERTY!

9-1-1 calls have faster response time with easy readable street numbers

In an emergency, fire departments, police and EMS may have difficulty finding your house if your address numbers are not easily seen from the street. This delay may be the difference between life and death.

- Numbers should be of **contrasting or reflective colors** to their background and not less than 4 inches in height.
- The proper use and display of street addresses are assigned by your municipality. **Check to be sure you are using the correct street numbers.**
- In the absence of a mailbox, use a post placed adjacent to the driveway, with address numbers showing on both sides.

HOW CAN I HELP MY COMMUNITY?
