

Connected. Trusted. Reliable.

2022 Heating & Cooling Incentive Guide

MEASURE	INCENTIVE PER UNIT
Central Air-Source Heat Pump* AHRI rated 15.0 SEER and 8.5 HSPF	\$1,000
Mini/Multi-Split Ductless Air-Source Heat Pump* 17 SEER and 9 HSPF	Outdoor Unit: \$900 Indoor Unit: \$100
Air-to-Water Heat Pump* COP of >1.7 outdoor air temperature of 5° F and water temperature at 110° F	\$2,000
Ground-Source Heat Pump* Includes Well-Connect, replacement ground source heat pump or new ground source heat pump. EER 19.0+	\$1,500
Ground Loop for Heat Pump New/replacement group loop installed with eligible ground source heat pump. Limit 1	\$2,500
Desuperheater for Ground-Source Heat Pump Must be connected to ground-source heat pump with desuperheater for domestic hot water generation. Must be connected to electric back-up water heater.	\$500
Wi-Fi Enabled Thermostat Limit 1 per electric baseboard, central A/C or central heat pump, or mini-split outdoor unit.	\$50
Heat Pump (Hybrid Electric) Water Heater Minimum 2.0 UEF	\$700
Electric Resistance Water Heater High durability plastic tank, point-of-use electric, or whole home electric.	\$100
Energy Recovery Ventilator ERV and HRV qualify. Equipment should be equipped with freeze/frost protection. Minimum CFM 40. Limit 2	\$500

MEASURE	INCENTIVE PER UNIT
ENERGY STAR Whole-Home Dehumidifier ENERGY STAR qualified. Portable units not eligible.	\$700
Electric Panel Upgrade** Up-sizing service panel capacity, adding sub-panel, or increasing service capacity to home. Limit 1.	\$500
Level 2 Charging Station** ENERGY STAR certified Level 2 charging station. Networked (smart) charging station must be able to connect to internet via WiFi.	\$600

**Requires licensed mechanical contractor installation.*

***Requires licensed electrician installation.*

For installations January 1, 2022 - December 31, 2022

Visit pieg.com for application forms, installation requirements, and complete incentive details.
