## PIPELINE AWARENESS

To promote safety around our natural gas lines, members should be aware of the following information.

### GAS LEAK EMERGENCY SERVICE

PIE&G's special gas leak hotline is **800.655.8565**. This number is designated for gas leak reporting **only**. Operators cannot take or transfer calls regarding other requests. PIE&G has emergency service available 24 hours a day, seven days a week. You must call 911 to report broken or open lines when there is a release of gas.

### NATURAL GAS PIPELINE MARKERS

Natural gas pipelines are buried and may be marked. However, the pipeline markers may not always show the exact location of underground lines or the direction they follow. Before any digging, please call 811 (**MISS DIG**). This is a free service. Utilities will be marked within 3 business days. Damaging or removing pipeline markers is against the law – punishable by fines and/or jail time.

### PIPELINE INTEGRITY

To protect the integrity of our natural gas pipeline system, PIE&G routinely inspects and performs maintenance, such as corrosion-control and leak surveys, and pipeline replacement when necessary. For your safety, our employees are trained to monitor and inspect our pipeline system and respond quickly to any natural gas emergency.

*Everyone should be familiar with these notices, even if they don't have natural gas service with PIE&G.*
