INTRODUCTION

Presque Isle Electric & Gas Co-Op ("PIE&G") is a member-owned, not-for-profit Electric Membership Corporation that provides electric service to areas of Michigan not served by other utilities. On March 29, an ice storm began and hit northern Michigan for days, leaving a path of destruction in all 9 counties served by PIE&G. The PIE&G service territory experienced snow and devastating ice, resulting in a nearly total loss of electrical service in PIE&G's territory. The effect of this ice storm on northern Michigan is significant, causing widespread damage in many areas including homes, businesses, core electric and fiber infrastructure, and government properties

As a result of the ice storm, PIE&G desires to obtain the services of one (1) or more qualified contractors that can provide disaster debris monitoring services. The full Scope of Services is described more fully in Exhibit A, which is incorporated into this Request for Proposals ("RFP"). PIE&G's service territory includes Emmet, Cheboygan, Otsego, Montmorency, Oscoda, Alpena, Mackinac, Alcona, and Presque Isle.

Time is of the essence to perform the Services as remaining damages to the system pose a significant threat to lives and further damage to property. The contractor shall provide personnel, equipment, plans, procedures and other materials and capabilities necessary to perform the Services. Respondents are to have experience in collecting, removing, and lawfully disposing of distribution system debris, fiber, and hazardous vegetation. As well, respondents are to have experience utilizing technology to guide their work and facilitate documentation. Proposals shall document the contractor's familiarity with and history of compliance with the current rules and regulations of the Federal Emergency Management Agency (FEMA), and other federal, state and local guidelines and regulations as they relate to the Services.

It is PIE&G's intent that the scope of work covered under this RFP will be funded, in whole or in part, by federal grant funding including but not necessarily limited to grants provided under FEMA's Public Assistance or Hazard Mitigation Program, or both. Respondents must therefore be familiar with FEMA's grant programs and the respective rules and requirements applicable thereto. The Contractor will be required to comply with all applicable Federal laws, regulations, executive orders, and FEMA requirements. Funding for the project under any available federal grants is contingent on strict conformance to the guidelines set forth by applicable state and federal guidelines, including regulations found in 2 C.F.R. Part 200.

investigations and examinations that are necessary to ascertain conditions affecting the requirements of this RFP.

In the event of breach, the Respondent will take all necessary action, at Respondent's expense, to correct such breach in the most expeditious manner possible.

Submission of a Proposal indicates acceptance by the Respondent of the conditions contained in this RFP. Failure to make such investigations and examinations shall not relieve the Respondent from obligation to comply, in every detail, with all provisions and requirements of the RFP.

E. Basis of Contract Award

The award decision will be based on an evaluation of a Respondent's ability to meet the needs of PIE&G. PIE&G reserves the right to make one (1) award or multiple awards. Award(s), if made, will be made to the responsible and responsive Respondent(s) whose Proposal(s) represents, in PIE&G's sole discretion, the most advantageous Proposal to PIE&G and best overall value to PIE&G, price and other factors being considered. When it deems doing so is in its best interest, PIE&G reserves the right to reject any or all Proposals, select and award any portion of any or all Proposal items, and waive minor informalities and irregularities in any Proposal.

A Proposal may be rejected if it is non-responsive or does not conform to the requirements and instructions in this RFP. A Proposal may be non-responsive by reasons, including, but not limited to, failure to utilize or complete prescribed forms, conditional Proposals, incomplete Proposals, indefinite or ambiguous Proposals, failure to meet deadlines and improper and/or undated signatures. Other conditions which may cause rejection of Proposals include evidence of collusion, obvious lack of experience or expertise to perform the required work, submission of more than one (1) Proposal for the same work from an individual, Respondent or corporation under the same or a different name and failure to perform or meet financial obligations on previous contracts.

EXHIBIT A: SCOPE OF WORK

Brief Description

PIE&G is requesting proposals for disaster debris monitoring services of fiber, hazardous vegetation, poles, wire, and any other disaster generated distribution system debris, that has been left in PIE&G's right of ways or on private property.

Detailed Scope of Work

PIE&G anticipates Contractor to perform distribution system debris monitoring and assessment services in and adjacent PIE&G's right-of-way and on private property.

PIE&G's right-of-way consists of property upon which property owners allow PIE&G to maintain, rebuild and construct overhead distribution electrical lines. The property owners permit the use of their property by executing a right of entry or by applying for electric service. PIE&G will electronically provide a detailed statement of work locating the debris to be removed. Assessment activities are complete. As of April 28, 2025, assessors have completed assessing our system. A map showing known debris locations and our full electric distribution system is included in Exhibit G for review.

The work to be undertaken includes, but may not be limited to:

A. Disaster Distribution System Debris Assessment and Monitoring

- Contractor will provide trained debris monitoring personnel to oversee the clearance, removal, hauling, and disposal of eligible debris, as applicable. Responsibilities include, but are not limited to:
 - Providing trained debris monitoring personnel at designated sites to check and verify information on debris removal/clearance operations
 - Validate hazardous trees, including hangers, leaners, and stumps and document hazard through photographs, GPS, and appropriate forms
 - Monitoring clearance and removal activity
 - Checking the area for safety considerations such as downed power lines and children playing in area, and ensuring that traffic control needs are met, and trucks and equipment are operated safely
 - Performing a pre-work inspection of areas to identify potential problems such as covered utility meters, transformers, fire hydrants, etc. to mitigate damage from loading equipment
 - Ensuring the work area is clear of debris to the specified level before equipment is moved to a new area

 - Remaining in regular contact with debris management/dispatch center or supervisor
 - Ensuring that only eligible debris is cleared
 - Ensuring that only debris from approved public areas is cleared

- Performing other duties from time to time as directed by the issuing Member or its designated representative
- Recording any instances of damage caused by debris removal/clearance crews or equipment with photographs and written reports
- Assessment and monitoring will verify that:
 - All trucks and equipment being used are in compliance with all applicable federal, state and local rules and regulations. All trucks and trailers utilized in hauling disaster debris shall be equipped with a tailgate that will permit the vehicle to be loaded to capacity and effectively contain the debris on the vehicle while hauling.
 - Debris removal contractors are being responsible for properly and adequately securing disaster related debris on each piece of equipment utilized to haul debris. Prior to leaving the loading site, contractor shall ensure that each load is secure and that no disaster related debris extends horizontally beyond the bed of the equipment in any direction. Contractor shall provide tarps or other coverings to prevent materials from falling or being blown from the bed.

B. Documentation

- The contractor shall provide personnel, equipment, plans, procedures, and other materials and capabilities necessary to perform the services. Respondents are to have experience in monitoring the clearance, removal, reductions, and hauling of disaster-generated debris and hazardous trees, limbs, and stumps, in compliance with Federal Emergency Management Agency ("FEMA") Public Assistance requirements.

These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.” (2 CFR 200.212)

(2 CFR 180.995)
- *System for Award Management (SAM) Exclusions*: The list maintained and disseminated by the General Services Administration (GSA) containing names and other information about persons who are ineligible. (2 CFR 180.945).

Instructions for Certification

1. By signing and submitting this proposal or agreement, the prospective lower-tier participant is providing the certification set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower-tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower-tier participant shall provide immediate written notice to the person to whom this proposal is submitted if at any time the prospective lower-tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms covered transaction, debarred, suspended, ineligible, lower-tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective lower-tier participant agrees by signing or certifying and submitting this proposal or agreement that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower-tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective lower-tier participant further agrees by signing or certifying and submitting this proposal or agreement that it will include the clause titled Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion—Lower-Tier Covered Transactions, without modification, in all lower-tier covered transactions and in all solicitations for lower-tier covered

transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower-tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the non-procurement list.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower-tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion—
Lower-Tier Covered Transactions

1. The prospective lower-tier participant certifies, by signing or certifying and submitting this proposal or agreement, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation.
